

Important information

- INVESTMENT INVOLVES RISKS. The value of the Fund can be volatile and investors may not get back the amount originally invested. Past performance is not indicative of future results.
- The Fund's investment in equity could be volatile and subject to high risk of loss.
- The Fund is subject to risks, such as investment, currency, equities securities and Green/ESG investment policy risks.
- The Fund's investments are concentrated in the environmental sector. The value of the Fund may be more volatile than that of a fund having a more diverse portfolio of investments. As such, the Fund may be more susceptible to different environmental factors such as government's decision relating to its environment-related policies.
- The Fund may invest in derivatives for hedging and/or efficient portfolio management purposes which may include counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk. Exposure to derivatives may lead to a high risk of significant loss by the Fund.
- In adverse situations, the Fund may suffer significant losses. It is possible that the original amount you invested could be lost.
- Investors should not solely rely on this document to make investment decisions. Offering documents should be read for further details, including the risk factors.

Global Environment Fund

Key facts

Fund Managers: Deirdre Cooper, Graeme Baker
 Fund size: USD 918.9m
 Fund launch date: 25.02.19
 Domicile: Luxembourg

Investment objective and strategy

The Fund aims to achieve total returns comprised of capital growth and income over long-term. The Fund's environmental objective is to make sustainable investments that aim to contribute to positive environmental impact. It does this by investing in accordance with its investment policy in companies which are considered by the Investment Manager as contributing to positive environmental change through sustainable decarbonisation.

All measurements in Tonnes CO2e per \$mm invested by the fund

Carbon avoided is the strategy’s measure of carbon impact from its portfolio companies. We set out the aggregated carbon avoided for the portfolio alongside aggregated emissions, but believe it is important to look at this data company by company which is provided in our annual impact report.

Please note that avoided emissions refers to a metric that compares actual emissions against a hypothetical reference scenario. While this is a helpful metric to assess the impact of specific interventions and monitor positive contributions, we believe that tracking and reducing overall emissions needs to be the cornerstone of any approach to addressing climate change.

Reporting carbon data is still at an early stage with considerable variation in estimates and disclosure across companies. Double counting is inherent in all aggregate carbon data. We believe in engaging with companies to improve carbon reporting and disclosure.

The benchmark may vary. As such the performances of the “composite” benchmark may consist of a combination of the old benchmark prior to the change and the current benchmark post the change. ¹Source: © 2024 Morningstar. All Rights Reserved. Data as of 30.04.24, performances based on NAV to NAV, gross income reinvested in base currency. Morningstar Ratings based on A Acc USD share class. This rating does not guarantee that the fund constituent, or fund prices will not fluctuate. ²The share class aims to make distribution as per the distribution frequency stated. Annualised Yield = Distribution per share/Record date NAVxDistribution frequencyx100%. **Warning: Please note that a positive annualised yield does not imply a positive return.** Dividend is not guaranteed. The Board of Directors may amend the dividend policy (including any change to dividend payment out of capital) subject to the SFC’s prior approval and by giving not less than one month’s prior notice to affected. ³Performance is calculated from inception of the share class to the end of the year. ⁴Benchmark performance is calculated in full calendar year.
