

Introducing the

For Tomorrow

share class

—
Investing for a
world of change

What is this share class?

Why did we create it?

Who will benefit?

The For Tomorrow share class provides an opportunity to invest in our Global Sustainable Equity Fund in a way that helps many who need it most.

At Ninety One, we believe we have a responsibility to invest for a better tomorrow. Our goal, always, is to help our clients achieve their long-term investment objectives. We are determined to do so sustainably, mindful of the interests of the planet and all its inhabitants.

For more than a decade, Ninety One has supported Tusk, a charity that helps in the conservation and protection of Africa's wildlife. We wanted to create a way to offer Tusk support for the long term, using our investment management experience to help meet Tusk's need for contributions.

So, we created a special share class — the For Tomorrow share class — within our Global Sustainable Equity Fund. This means investors in the For Tomorrow share class are invested in a sustainable strategy committed to finding the leading companies of tomorrow. But in addition, as share class investors, the entirety of the fee they pay to Ninety One is donated by Ninety One to Tusk. Any increase in the value of the investment accrues to the investor. Any fee goes to Tusk.

Tusk will use the entirety of the fee donations to help support the needs of rangers, their families and communities. Across Africa, many thousands of rangers devote their lives to conserving and protecting wildlife. We would like to play a part in helping to make sure the ranger communities, in turn, have the assistance they need.

The For Tomorrow charitable share class

- 1 A share class in the Global Sustainable Equity Fund
- 2 Ninety One donates the full 1.00% management fee to Tusk
- 3 Beneficiaries of the donations are ranger communities
- 4 Minimum initial investment: US\$50,000 or the approximate equivalent in another approved currency

Seeking companies with sustainable drivers of growth that are helping to build a better world

General risks. The value of investments, and any income generated from them, can fall as well as rise. Past performance does not predict future returns. If any currency differs from the investor's home currency, returns may increase or decrease as a result of currency fluctuations. Investment objectives may not necessarily be achieved; losses may be made. Environmental, social or governance related risk events or factors, if they occur, could cause a negative impact on the value of investments.

Specific risks. Equity investment: The value of equities (e.g. shares) and equity-related investments may vary according to company profits and future prospects as well as more general market factors. In the event of a company default (e.g. insolvency), the owners of their equity rank last in terms of any financial payment from that company. Concentrated portfolio: The portfolio invests in a relatively small number of individual holdings. This may mean wider fluctuations in value than more broadly invested portfolios. Emerging market (inc. China): These markets carry a higher risk of financial loss than more developed markets as they may have less developed legal, political, economic or other systems. Sustainable Strategies: Sustainable, impact or other sustainability-focused portfolios consider specific factors related to their strategies in assessing and selecting investments. As a result, they will exclude certain industries and companies that do not meet their criteria. This may result in their portfolios being substantially different from broader benchmarks or investment universes, which could in turn result in relative investment performance deviating significantly from the performance of the broader market.

Ninety One UK Limited (“Ninety One”) is supporting Tusk Trust Limited (“Tusk”), a registered charity (number 1186533), by making donations equal to 100% of the management fee it receives for managing the assets of the T/TX share classes(es) in the Global Sustainable Equity Fund, a sub-fund of the Ninety One Global Strategy Fund. The management fee is equal to 1% per annum of the net asset value of the applicable T/TX share class that you are invested in. So, for example, if the average value of your investment over a year in US\$50,000, then Ninety One will receive US\$500 as its management fee for that year, all of which will be donated to Tusk. The donations shall continue for the duration of your investment in the T/TX share class and Ninety One’s agreement with Tusk.

Important information

All the information contained in this communication is believed to be reliable but may be inaccurate or incomplete. Any opinions stated are honestly held but are not guaranteed and should not be relied upon. This is not a buy, sell or hold recommendation for any particular security. This communication is provided for general information only. It is not an invitation to make an investment nor does it constitute an offer for sale. The full documentation that should be considered before making an investment, including the Prospectus and Key Investor Information Document, which set out the fund specific risks, is available from Ninety One. The Ninety One Global Strategy Fund is a UCITS organised as a Société d’Investissement à Capital Variable under the law of Luxembourg. This communication should not be distributed to retail customers who are resident in countries where the Fund is not registered for sale or in any other circumstances where its distribution is not authorised or is unlawful. Please visit www.ninetyone.com/registrations to check registration by country. In the US, this communication should only be read by institutional investors, professional financial advisers and, at their exclusive discretion, their eligible clients, but must not be distributed to US Persons. THESE INVESTMENTS ARE NOT FOR SALE TO US PERSONS. Issued by Ninety One, November 2023.

This is an advertising communication for institutional investors and financial advisors only. It is not to be distributed to retail customers who are resident in countries where the Fund is not registered for sale or in any other circumstances where its distribution is not authorised or is unlawful.
